

# Flying Penguin Extraordinary Educational Toys

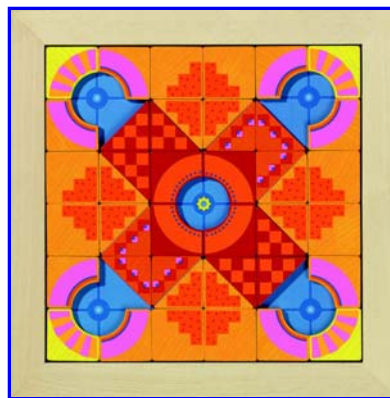

13 October 2009

## Sustainable Toys

Flying Penguin continues to find the very best eco-friendly toys available in Australia.

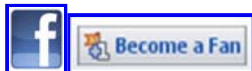

[Click here](#) to go to the Flying Penguin website:

[www.flyingpenguin.com.au](http://www.flyingpenguin.com.au)

In this e-update we tell you about the launch of the Newtown Flying Penguin, some fabulous new toys and the virtues of bamboo.

To make sure you continue to receive our monthly e-updates, please add our email address to your email address book: [info@flyingpenguin.com.au](mailto:info@flyingpenguin.com.au)

## Newtown Flying Penguin to open this Saturday!

Since the last e-update Jackie, Vicki and Brenna have been watching the Newtown Flying Penguin take shape. Only weeks ago, a concrete cave, now there are freshly painted walls, ceiling and a new floor. The electrics and plumbing have been installed and last Wednesday the shelves went in. Finally we have a lovely home for the gorgeous toys we have collected. To have a look at the progress of the building, [click here](#).

On Saturday 17 October  
we will open the doors! If you are nearby, please drop in:  
359 King Street, Newtown.

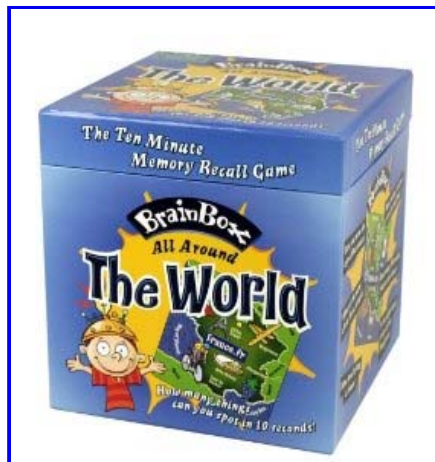

[On the day](#) there will be a gift for each child, a great range of [opening bargains](#) and \$5 off for every \$30 spent for everyone who mentions this email.

**We invite our friends who cannot be at the launch to share the festivities. If you place a website order before the end of October, use CELEBRATE in the voucher field as you check-out to receive 15% off the order total.**

---

## What's New?

Click on the images below to find out about our newest toys and games:

We have also found an eco edition of traditional [playing cards](#) and have expanded the range of organic cotton Keptin Jr [stripey baby rattles](#).

---

## Did you know that....

Did you know that [bamboo](#):

- is a grass
- is the world's fastest growing plant
- is pest resistant and requires little water
- can be harvested and easily re-grown in a short time without replanting
- produces 30% more oxygen than a hardwood forest of comparable size
- has been credited with helping prevent erosion and removing toxins from contaminated soil
- can be used in countless ways, for example: as a floor covering, in clothing and to make [toys](#)
